

System Check Warnings

Review the warnings (2) below before continuing:

Your serial number does not entitle you to SOLIDWORKS 2021. If your license is new, you may want to try again later. Otherwise contact your reseller to verify that the number is correct. You will still be able to choose the products you want to install, but you will not be able to download any installation files. If you continue without downloading enabled, you will need to provide a complete set of download source files or a DVD from which to install.

Click **Back** to check the serial number you entered or enter a new serial number. If you continue without a validated serial number, the Installation Manager will not pre-select the products to which you are entitled.

Your serial number does not entitle you to SOLIDWORKS PCB 2021. If your license is new, you may want to try again later. Otherwise contact your reseller to verify that the number is correct. You will still be able to choose the products you want to install, but you will not be able to download any installation files. If you continue without downloading enabled, you will need to provide a complete set of download source files or a DVD from which to install.

Click **Back** to check the serial number you entered or enter a new serial number. If you continue without a validated serial number, the Installation Manager will not pre-select the products to which you are entitled.

Summary

This is a new installation of 2021 SP3.0.
