[QUOTE=Hal Bryan;2510]Bob - this is next on my list. SmittysRV posted about some issues he had on IOS as well. If you could please provide a set of really specific steps to reproduce the issues you're having with the iPad, I'll be happy to help. I have an iPad 2, and access to a first-gen, so if I can see exactly what you're seeing, that will make troubleshooting and testing a lot simpler.

Thanks -
