Thank you for your interest in downloading SOLIDWORKS Education Premium!

We have a few reminders before you download the software:

1. [Read the hardware requirements](#). The 3D modeling functionality may not work with complex designs using standard video cards.
2. [Read the Supplement to the End User License](#) & [End User License](#). The software is intended for non-commercial use only. GSC and DS SolidWorks offer the opportunity to convert this license into a commercial license. Please visit the [SOLIDWORKS Related Benefits](#) page to find out more.
3. **Additional limitations:** You may not distribute or otherwise provide access to the software to anyone else, EAA is not the producer or distributor of the software and makes no claims as to the software's fitness for a particular use, and EAA members receive access to the software "as is" without any support services. If EAA members have questions about the software, they are encouraged to ask them on the [EAA Forums](#) and volunteers will make every effort to answer them on a timely basis.

Instructions on downloading the software:

1. Uninstall the current version of SOLIDWORKS running on your computer by opening Add or Remove Programs, and on the Summary Change the Advanced Options and check all boxes (i.e., Registry Edits, Data Files and Folders, and Download Files and Folders).
2. Next, go to the SolidWorks.com/SEK.
3. EAA is considered an educational institution for this program. Please enter the following in the form. *Please note: the License ID is a unique ID, do not share it or your access to the software may be inhibited.*
